Current role	Trainee Junior Full-stack developer at _nology
Technologies	SQL, React, CSS, HTML, JavaScript, Java, MySQL, SpringBoot

Right now I'm learning...
Firebase Auth and Firestore for a full-stack property app

Work experience

Trainee Junior Full-stack developer, _nology ⊞
Aug 2022 – Present (5m)

a tech bootcamp provider

SQL · React · CSS · HTML · JavaScript · Java · MySQL · SpringBoot

- Learnt Javascript, Java, MySQL, React, Spring Boot and Agile methodologies all in 12 weeks
- Balanced heavy workload of learning and projects alongside self-study
- Acted as Product Owner of a 16 person scrum team for a week sprint of a client project. Oversaw production and merging of multiple branches at once and ensuring everyone followed agile methodologies and the documentation. Ended the week with a successful meeting with the client.
- Had a focus on TDD (test driven development) with unit testing, E2E testing, and API testing with Postman

Line Chef, Wagamama ⊞
Jul 2021 – Jan 2022 (6m)

- Worked under high pressure to prepare and present dishes to specification under time constraints
- Opened up and closed down the kitchen, cleaning to standard
- Memorised safety and preparation guidelines quickly
- Trained new staff on conduct and preparation
- Multitasked to complete multiple jobs at once to improve flow in the kitchen
- Worked varying shifts, able to be flexible

Education

University of Birmingham

Undergraduate Degree (2:1) Music
- Utilised R to model and analyse data sets
- Performed statistical tests on sets of data to draw conclusions with a critical stance
- Wrote an empirical study report
- Keen performer and leader of orchestras as cellist
- Composer
- Written academic essays with high marks

More about me

My favourite technology is...

React because it was so innovative in shaping the front-end of modern websites. I also think hooks are really neat!

I'm excited to work for a fast-growing company because...

It will provide the opportunity to allow me to learn new things and grow into my tech career. It also aligns with my need for a challenging yet motivating role, where I can grow with the company.

Right now I'm learning...

Firebase Auth and Firestore for a full-stack property app

Interests

Composing; Crochet; Playing in orchestras; Painting
